

ITS (Image and Therapeutic Services)

Peer Group Leader: Alex Anderson

Organization: Clifton Springs Hospital, Clifton Springs, New York

Start To Finish: Launching Images from ITS/PCI/Clinical Review

Presenter: Deepika Patel

Organization: Unity Health Center, Shawnee, Oklahoma

Abstract: This presentation will show the steps within MIS/ITS/NMI to successfully launch images from ITS. It will also show how images will appear in PCI and Clinical Review (If applicable to the hospital/clinic). Sample HL7 messages will also be in the presentation that provide a general summary of a message being sent inbound to MEDITECH as well as modified fields that PACS Vendors can manipulate to update order status messages as well as links directly to the images. The last part of the presentation will include how to launch EKG images from MEDITECH in the same fashion.

Deepika Patel is a Systems Analyst/PACS Administrator at Unity Health Center, in Shawnee, Oklahoma
